The Germanic Confederation

So much has been said of late concerning the Germanic Confederation, and so little is generally known of the manner in which it is constituted—the purposes for which it was organized-the States it comprises, and the limits of its powers under the Federal treaty, that a brief account of its origin, and the objects sought to be attained by the compact, may possibly, at this time, prove interesting to the reader. The Germanic Confederation, as it exists at present, grew naturally out of the Confederation of the Rhine, which sprang up during the Napoleanic wars, and at a time when the influence of that great military chieftain was paramount in Germany. The old German Empire, which was dissolved in 1806, was divided into nine circles : Austria, Bavaria, and Swabia, in the south; Franconia, the Upper Rhine and the Lower Rhine, in the centre; and Westphalia Upper Saxony and Lower Saxony, in the north. It

secular and ecclesiastical, holding directly of the Tyrolese chasseurs, pursuing them into the Swiss Emperor. The titular changes introduced by Napoleon I. gave the first serious blow to this ill-compacted organization, and finally led to the separation of sixteen German States from the ancient Diet of the Empire, and the establishment under the treaty of Paris, in 1806, of the Confederation of the Rhine. After the downfall of Napoleon, which was accelerated by the defection of his German allies, the dissolution of the Rhenish compact followed as a matter of course, and in its stead a Germanic Confederation was proposed, which should comprise all the independent States of Germany. The suggestion was promptly acceded to, and the number of representatives to which the respective States were envellow. The Provision and Produce Markets are gene- was established in 1815, and the members of the Diet met in session for the first time in November, 1816.— The object of the confederacy was declared to be to secure the independence and inviolability, and to preserve the internal peace of the States. In other words, it was for the mutual support and defence of the contracting parties within the recognized instructing the Supreme Court Judges to disregard the limits of Germany, but none of the extra Federal possessions belonging to the respective States were to be regarded as coming within the terms of the compact, unless an attack upon them imperilled the integrity of the fatherland. Article 46 of the Federal compact expressly declares "that if a federate State commences a war beyond the federal territory, as a European Power, this war becomes foreign to the Confederation." And in another place it is provided that "in The steamer Africa, with Liverpool dates to the 9th case such a State is threatened or attacked in its possessions outside of the Confederation, the obligation to take measures of common defence; to participate in the war, or to furnish help, is only incumbent on the Confeceration if the Diet, after having deliberated in limited council, finds in the plurality of votes that there is dan-All funds had considerably advanced, on the hope of ger for the Federal territory." NEW YORK, July 25, 1857.

Welsh Newspaper office, 13 Nassau st., A ril 12, 1858. Prof. O. J. Wood: - Dear Sir, - Some month or six weeks ago I received a bottle of your Hair Restorative and gave it my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color, but to her as well as my surprise, after a few weeks' trial it has performed that wonderful effect by turning all the gray hairs to a dark brown, at the same time beautifying and thickening the hair. I strongly recommend the above Restorative to all persons in want of such a change CHARLES CARDEW. of their hair.

REVIEW OF THE WILMINGTON MARKET.

FOR THE WEEK ENDING JULY 21st, 1859. Since our review of Thursday last the market has ruled for Liverpool coarse .- News. ing articles remain unchanged, except Spirits Turpentine, which closes at a slight advance. Below we give as accurate a review of the week's transactions as we have been able to Meal and Cotton.

TURPENTINE-During the week just ended there has been rather a better demand for this article, and the market has ruled firm-parcels finding ready sale on arrival at quotations in table below. The receipts for the week have been quite small, the sales footing up only 2,649 bbls, as follows:

Virgin. Yel. Dip. Thursday..... \$3 00.....\$2 85... Friday 392. 3 00. 2 85. 1 50 Saturday 108. 3 00. 2 85.

Spirits Turpentine—Continued at last Thursday's quotation (40½ cents) up to Monday, when the price went up ½ 000; Virgin, \$2 50 @ 000; Hard, \$1 10 @ 00; Spirits, used two or three times a week, will restore and permanent- cent, since which time it has ruled steady at 41 cents per gallon. No sales this morning. The week's transactions foot up 1.580 bbls., as follows: Friday 400 bbls. at 401 cents # gallon.

Saturday 340 " " 403 Monday ... 250 " 41 Wednesday. 340 " " 41 24 66 46 Rosin-We have no change of importance to report in the

price of either grade during the week ended this morning .-The demand has been light, and notwithstanding the small quantity offering, the market has ruled quiet with limited transactions. The following comprises all the sales we can hear of: Thursday, 1026 bhls. No. 1 and Pale at \$3 to \$3 50; Saturday, 800 do. Common at \$1 25 per bbl., and 348 do. No. 1 and Pale at \$2 to \$4; Monday, 203 do. Pale at \$3; and July 21st, 1859 Wednesday, 550 do. No. 1 and Pale at \$2 50 to \$3 75 per bbl. TAR-Is in some enquiry, and none brought to market for the past two weeks. We quote nominally at \$1 80 per bbl. BEEF CATTLE AND SHEEP .- No change worthy of report in the market for beeves. Butchers have a very small stock on hand, and none arriving; in fair demand a 6 to 62 cents per lb. for grass fatted. SHEEP are in moderate supply, and demand light; for an extra article, however, high figures,

BARRELS-For empty Spirits Turpentine barrels we note a very dull market, and sales are difficult to effect at low figures; fair supply in first hands. Sales on Soturday of 450 second hand ones at \$1 55; and Tuesday 160 do. at \$1 50 each, 90 days, for parcels as they run. Se ected seil in your Restorative in January last. action to report. We quote nominally at \$7 for superfine, FEATHERS-Are in moderate supply, and dull at 45 to 50 GRAIN.—The arrivals of Corn have been meagre for the past three or four weeks, in consequence of which the stock in dealers' hands has been nearly worked off, and is barely

sufficient for present wants. There is a brisk demand existing, and for a few cargoes of good quality high prices could readily be obtained. Received for the week 4,250 bushels, of which 1,100 do. sold (on Wednesday) at \$1 % bushel, and 850 do. on terms not made public; the balance has gone into store. - OATS-Continue to be in light stock, and we notice a fair demand from dealers. No late receipts or sales and quotations in table are merely nominal. --- PEAS-Remain about as reported for several weeks past. With light receipts the stock of Cow has become somewhat reduced. though there appears to be only a limited demand. A lot of 60 bushels sold from vessel on Wednesday at 871 cents 3 bushel. - RICE. For clean there is merely a retail demand, and the stock in first hands is fully adequate for present purposes. We quote at 44 to 44 cents \$ 16. HAY-Rules about the same as reported in our last. Only

about 150 bales Northern received, which sold on Wednesday at 65 to 70 cents per 100 lbs., cash and time. No late receipts of Eastern. LIME-Continues to be in good supply, and the market

Molasses-There has been merely a retail demand for sevral weeks past, and we note a fair stock of Cuba in first hands. We continue to quote at 24 to 26 cents per gallon.

brought in. Sell at 90 cents to \$1 per bushel. PROVISIONS-No arrivals of N. C. cured Bacon for some weeks, in consequence of which the market has become almost if not entirely bare. There is an active demand from dealers, and high figures could be readily obtained for a few lots of prime quality. In the absence of sales we are unable to give a correct quotation of the market, and therefore quote nominally at 121 cents for hog round, and 131 a 14 cents # lb. for hams. For Western cured the demand continues limited, and dealers have a moderate supply in store. We have to report only small transactions at prices ranging within quotations, as in quantity and quality .--LARD-The market is poorly supplied with N. C. make, and rules firm, with a fair demand for retailing purposes. We quote at 13 to 131 cents # lb. in bbls. and kegs. Western is also in light stock, and rules steady at 121 cents. PORK-Mess has been in rather better request since our

to our table for store rates, as in quantity and quality. SALT-Nothing of moment done in this article. Alum is in moderate supply and sells only in the small way from store at quotations. See table. Liverpool ground rules steady at previous rates. A lot of 200 sacks was received coastwise on Wednesday, and sold at 87 cents per sack,

ket dull at \$2 to \$2 50 for Common, and \$3 50 to \$5 \$ M.

7½ for Contract, as in quality. TIMBER .- Owing mainly to the low stage of the water courses little or none has been brought in during the past week. There is some enquiry for mill purposes, and a prime

market rules firm. Vessels experience no difficulty in obtaining cargoes at prices quoted in our table.

CHARLESTON, July 20.—Cotton.—The sales this morning amounted to 229 bales at the following particulars: 1 at 101; 100 at 11; 90 at 111; and 38 at 111 cents. Rice-The market during the past week has remained in a very quiet position, and without any change in its former features as reported in our last, prices having remained the same, extremes ranging from \$3\frac{1}{4} a \$4\frac{1}{4}\$—the bulk of the sales, however, within the range of \$3\frac{1}{4} a \$4\$, the better qualities being very scarce, and none on the market.

Rough Rice.—The receipts of three cargoes amounting to

8600 tierces were sent to the mills from first hands for pound-Grain .- The market has remained in a very quiet state, there having been no arrivals, either of Corn or Oats. Dealers, at the same time, continue with an ample supply, and prices of both exhibiting rather a downward tendency. We quote Corn, according to the last sales made, at 90 a 92 cents, in bulk, for measurement, and in bags at \$1 03 a \$1 05 # bushel of 56 pounds, bag included; Maryland Oats, as per last sales at 45 a 46 cents.
